

Love & Belonging: Healing the Past, Moving Ahead with Family Constellations

Dyrian Benz

JoAnna Chartrand

Love and a sense of belonging are the cornerstones to fulfilling relationships throughout life. Disturbances in these patterns of love and attachment create havoc in families, for generations. These usually hidden forces are harnessed for healing through the Family Constellation Process. As we cultivate presence, honor the past and our ancestors, we build a strong future. Participants will gain a deeper understanding of the healing power of love and of the family soul in human relationships. Co-presented with JoAnna Chartrand.
